

## Our Album Products are made in Italy with the finest photographic materials

**Epoca Wedding Album:** Available in a variety of formats and different proportions, Epoca Wedding Album features an ample range of covers and unparalleled photo quality, guaranteed by the finest photographic paper.

**The Friends Album:** a special wedding photo album, is specially designed for wedding guests or other friends and relatives as a souvenir of a special day. Printed in offset on glossy paper and bound as a booklet with a soft personalization cover, the Epoca Friends Album is the perfect choice for wedding couples with many friends and relatives.

**Best Friends Album:** For the dearest and closest friends of the bridal party, choose a special wedding album. Actually the Epoca Best Friends Album offers a refined and attractive album printed in offset on gloss paper and finished with a hard plastic cover – the perfect special gift for those who participate in the wedding.

**Parents Album:** Our parent albums offer fine printing on matte photographic paper and in offset on Spledorgel, with rigid covers that can be personalized. Epoca Family, a smaller duplicate of the main album, is created with the same technique of continuous page binding that guarantees maximum craftsman quality. Elegant and precious, this parent album is the ideal choice for family memories, truly worthy of such an important occasion.

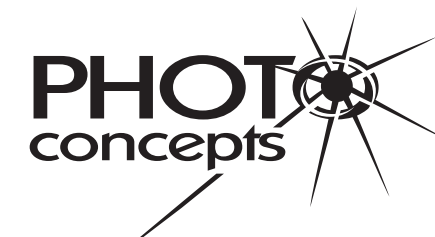

**Compat Albums:** A slim line modern album that enhances the moment, whatever it is. Characterized by extreme slimmness (from a minimum of 10 pages to a maximum of 40), Compat is printed on matte photographic paper and features an attractive minimalist design with the same high quality of the continuous-page binding format. Its versatility allows it to provide, in just a few pages, exactly the right focus for any event. Il Compat covers can be personalized.

**EventBook:** The EventBook is the new professional photo book with customized photographic cover. The highlight of this article, the cover can be fully personalized and is available in two versions, one printed on metallic photo paper (for extra luminescence) with a gloss plastic coating (for extra protection) and padding that makes the album exclusive and appealing to the touch, and the other with a hard cover in fabric with a choice of 4 colors (cream, brown, black or grey) and over-cover printed on metallic photo paper.

Pages are available in two versions: offset printed on UV coated gloss paper and bound as a booklet, and photo printed on matte photo paper and bound with continuous flexible pages. Color On request and at no extra cost a professional color correction service can also be provided, with every single photo checked and corrected to guarantee a finished product of outstanding quality.

**MiniBook:** The MiniBook is the smallest Album Epoca photo book. MiniBook can be reproduced in a great number of copies and is therefore perfect as a present for friends, for weddings and for any other event, like baptisms, first communions, confirmations, family portraits, still life, fashion and others. It can be a scaled-down version of a photo book with the same proportions, serving as a 'miniature' of the main product, or can be completely different, with a livelier and less formal layout to show not only the official photos of the ceremony but also the more entertaining and unusual shots taken by relatives and friends during the celebrations.

MiniBook is printed in offset on gloss coated paper, bound as a booklet with a personalized soft plastic cover that can be ordered in multiples of fifteen. MiniBook is also ideal as a promotional article for your design, the best possible 'word-of-mouth' advertising to publicize your work and to increase your visibility profile.
